

Baddy

design *JoeVelluto+A.Fabian*

I nani da giardino ritornano, ma con la nuova funzione di “nani da guardia”. Con un’aria tutt’altro che amichevole, splendono di luce propria grazie alla resina luminescente che li compone. Assorbendo la luce per qualche istante, la rilasciano poi per tutta la notte, diventando delle piccole presenze nella notte.

Garden’s dwarfs are back but with a brand new role: “guard dwarfs”. With an attitude that could hardly be defined as friendly, they shine thanks to the luminescent resin with which they are produced. Absorbing the light for few moments they release it along the night, becoming small presences in the dark.
