

Möbius

Designed by LucidiPevere

Surfaces usually have two sides, but one day a mathematician discovered that it was possible to make a surface with just one side. The geometric shape called “Möbius band” inspired this occasional table in bent sheet metal with black or white lacquer finish. It can be used with or without a glass top. Algebra and design provide an original combination.

Finish of structure:

Steel painted white

Steel painted black

Finish of top:

Transparent extra light glass

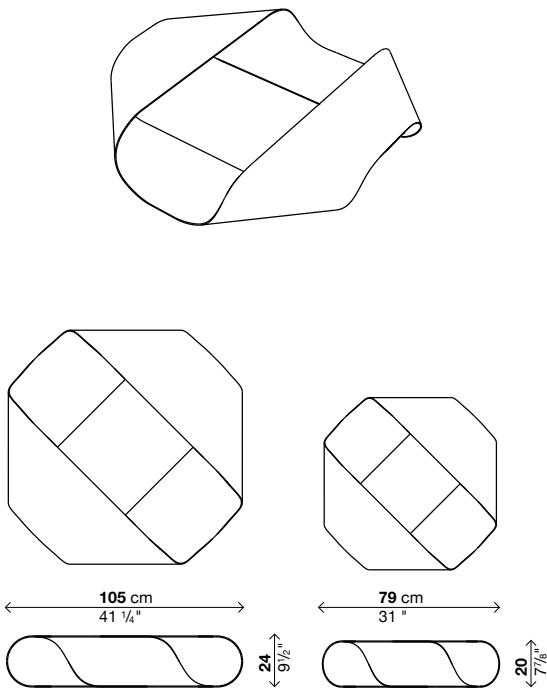

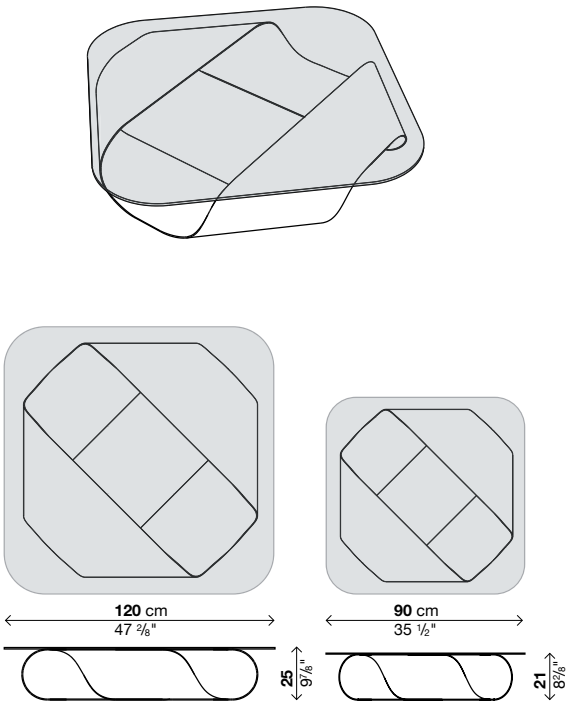

Transparent smoked glass

With glass top				
Code	W x D	Finish of frame	Finish of top	Vol.
01MOB01	90 x 90	steel painted	smoked glass	0.26
			transparent glass	
01MOB02	120 x 120	steel painted	smoked glass	0.45
			transparent glass	

Nr. packages 2

Without glass top			
Code	W x D	Finish of frame	Vol.
20MOB01	79 x 79	steel painted	0.21
20MOB02	105 x 105	steel painted	0.37

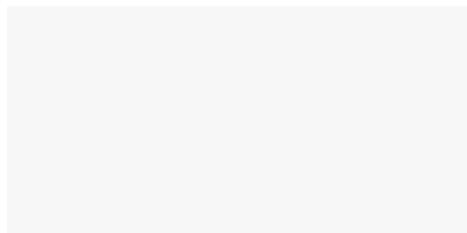

Nr. packages 1
